

I beleave that K-Love is a big part of our community and think that there would be a lot sad people if we tool K-Love of the radio in our area. I love being able to get in my van and listen to my kids and my nieces and newphe sing along. I have pulled up at a stop sign and have heardK-love playing in the car next to me and that was great we both looked at each other and smiled. Our commuinty is a great one and there is a huge amount of people that listen to this radio station and get what they need from it. I like the fact that I have a postive attitude when i get out of the van and makes me feel bette about myself. I stared listening to K-Love about 2 months ago when i started going through my divorce and it has rally helped me out alot. My kids like and so do I. I want to thank you K-Love being there and hope and pray that you will continue being there.
